## MAJOR INDORSED BY 1075 TO 220

NODAWAY AND FOURTH DISTRICT  
AGAINST GOVERNOR.

## GOLTRA RE-ELECTED NAT. COMMITTEEMAN

Democratic State Convention in St. Joseph Yesterday Was Most Bitter  
Ever Held in Missouri.

Gov. Elliott Major obtained his wish at the hands of the Democratic state convention yesterday—an indorsement of his administration and his candidacy for the nomination for vice president. The indorsement was the climax of the bitterest fight Missouri Democrats ever saw, in which personalities were indulged in with a bitterness which knew no bounds. When the vote was put, Major was indorsed by a vote of 1,075 to 220. This ended the convention, and it was adjourned at 10:55.

Edward F. Goltra of St. Louis, present national committeeman from Missouri, and avowed anti-Major Democrat, won an easy victory over Judge James S. Cowgill of Kansas City, retaining the chairmanship by a majority of 200 votes. It was the first big fight of the convention, and the victory of Goltra was unexpectedly easy. Cowgill was the Major faction's substitute for Horace S. Rumsey of St. Louis in the committeemanhip contest.

Tom Pendergast's Jackson county delegation voted as a unit for Major's candidacy for national committeeman and the St. Louis crowd was divided.

The eight delegates at large to the national convention elected were: James A. Reed, William J. Stone, Champ Clark, W. W. Graves, J. T. M. Johnson, William H. Phelps, Lon V. Stephens, James Cowgill.

The other five were declared to be alternates and the committee is to fill the other three places. These five are James P. Boyd, Fred A. Morris, Thomas R. Ely, J. F. Osborn and Frank H. Farris.

### Reed's Vote Highest.

If the extent of the vote is any indication of the popularity of the candidates Senator Reed stands highest in the estimation of the convention. His high vote may be taken as an indorsement of his candidacy for re-nomination for the senate.

Senator Stone came within ten votes of Reed, and this is taken by his friends to indicate that he is being backed by the Democracy of Missouri in his stand as chairman of the foreign relations committee of the senate, one of the most important positions in the country just at this time. Champ Clark ran third in the list. Judge W. W. Graves, who has been mentioned as a candidate for governor with the backing of the Major faction, was the only other man who was given more than 1,000 votes by the delegates.

Boyd of Monroe, after the report of the vote on delegates at large, moved that the men receiving the highest vote be declared elected. This was carried. Following is the vote:

Champ Clark, 1,153 votes, James P. Boyd 677½, James A. Reed 1,195, James Cowgill 830½, J. T. M. Johnson 1,034½, Fred A. Morris, 641, Lon V. Stephens 866, William J. Stone 1,185, Thomas R. Ely 486, William H. Phelps 903½, J. F.

### The Permanent Officers.

Payton Parks of Clinton was made permanent chairman. He was the choice of D. C. McClung, chairman of the Democratic state committee and the Major manager. The report of the committee on permanent organization was adopted without opposition. Robert H. McClanahan of Grundy county was made permanent secretary.

The credentials committees report seating the anti-Major delegation in St. Louis county, where the city contest was.

At 4:30 o'clock the resolutions committee had agreed upon its reports. There are two reports, majority and minority, and they are the same in all respects, save that the majority report endorses Major for vice president, while the minority report endorses Marshall for vice president.

The minority report is signed by Judge Charles H. Mayer of the Fourth congressional district, who led the fight on Major in the committee, and Ralph Wammock of the fourteenth congressional district, in the southeast part of the state.

After the adjournment of the committee, Wammock said:

"They practically all wanted to sign the minority report with us. They admitted that we were right in our contentions—that the party ought not to prostitute itself by endorsing a man for the vice presidency who is not fit." (Continued on page 2.)

## AID TO GLEE CLUB

WILLIAM JEWELL ORCHESTRA  
ADDS TO PROGRAM

## TEN PIECE ATTRACTION

Some Press Notices of Musical Organizations at Baptist Church  
March 29.

The William Jewell glee club orchestra consists of ten pieces, two violins, clarinet, flute and piccolo, cornet, trombone, euphonium (cello), string bass, drums and piano. It is the best balanced and has the best individual talent in it of any glee club orchestra that the college has ever had. It has been one of the great attractions of the glee club everywhere it has gone, and will be with the glee club in its concert to be given at the Baptist church on March 29th.

Following are some press notices of the work of the orchestra:

William Jewell Student: The orchestra was a very pleasant part of the evening's enjoyment. It is its first year's appearance, and the harmony and melody seem a perfect guarantee of its permanence.

Huntsville Herald: The orchestra was a delightful one. Music and selection pleased greatly.

Sedalia Capital: An orchestra of splendid talent.

Moberly Daily Monitor: One of the rarest and most classical musical treats was given to the theater-goers of this city by the William Jewell Glee club of William Jewell college, Liberty, Mo., last Monday and Tuesday. About three thousand admirers gave hearty response to "Greetings to Spring" (Blue Danube waltzes) by Strauss, given by the entire club. The High School Athletic club should congratulate themselves upon securing this club of twenty-two young men, and every one an artist.

The Sedalia Capital: The William Jewell Glee club, which gave an entertainment at the East Sedalia Baptist church, does a lot of musical things, and does them all exceedingly well. This club is composed of twenty-two young men, and they not only make up a glee club of exceptionally good voices, but furnish impersonators, a quartet, mandolin club and orchestra of splendid talent.

In the entertainment last night every performer, whether in the full club or solo or orchestral numbers, was compelled to respond to an encore by the insistent applause of the large audience. It was a high class entertainment in every way and one that reflected distinctive credit upon every performer.

## WIGGINS IN MEXICO

MARYVILLE SOLDIER ACROSS THE  
BORDER AT EL PASO.

## SHORT NOTE TO MOTHER

Dated "Somewhere 80 Miles South of  
Rio Grande"—Glad to Get  
Into Action.

Somewhere in Mexico in the thousands of American troops closing in around Villa and his bandits is W. H. Wiggins, a Maryville man, artificer in Company F, Sixteenth Infantry. A letter to his mother, Mrs. Sarah Glover, was received yesterday telling that his company was on the march.

So "somewhere in Mexico" will be at the head of letters arriving in Maryville from now on. The letter written last week and sent back to the American border for mailing was merely a note, saying that he was with his company in the hunt for Villa and that they were about 80 miles south of the Rio Grande at that time.

Wiggins said in his short note that 7,000 men are in the expedition of which he is a part. Judging from letters written in the last few months, he is glad to be off. In a letter to his mother from El Paso, dated February 16, he says in part:

"We are all working hard of that 'preparedness' stuff. But we are lucky in having good officers, the eats are good and the camp is in fine shape. Life here is not half bad, except for the stinking greasers. For odor a Mexican is as much worse than a negro as an auto is than a wheelbarrow. 'We soldiers are awful tired of the 'grape juice' policy that will not let us shoot up the greasers. But I guess that I will stick to the army, for I don't want to miss any scrap that bobs up. I believe that I am well trained for my work now, and if we do go to war I will do my bit or be sent back in a wooden kimonos."

### Was Chauffeur in El Paso.

In a letter dated January 15, 1916, Wiggins tells of his work in driving a car. All of the soldiers carry an automatic on their hip for instant use. He thought that carrying the troops from one disturbance to another is more exciting than regular soldiering.

As an explanation of why the soldiers in camps are anxious to get away to real action, a letter of last fall concerning the life of the soldiers in camp at El Paso is of interest. He says that most people think that a soldier has only to eat, sleep and dress up. Then he gives the following list of what a soldier may have to do:

"We soldiers have to combine the work of a clerk, mechanic, carpenter, athlete, in fact most of the known trades. One day a soldier may peel 'spuds,' or run an automobile, and the next day fire an engine, or draw maps, or grab a club and take a hand at policing the city; build a house or dig a sewer. Perhaps the same evening we will be called upon to give a parade to a lot of 'boobs' who don't know a gun from Adam's off ox."

In case anything should happen to Mr. Wiggins in Mexico, he and his family have the satisfaction of knowing that his fifteen years of service have been clean and honorable, without a single demerit. As Wiggins says in a recent letter, that may not mean a great deal to a civilian, but it is one of the proudest thoughts of a soldier.

## 'Twas AN UNCANNY NIGHT

Sun Dog Brought High Wind, Chilly  
Winds and a Real Green-Cheese  
Look to the Moon.

Sun dogs yesterday afternoon brought their storm and change in the weather rather suddenly last night. The sun dog appeared between 4:30 and 5 o'clock yesterday afternoon. Those who saw the unusual sight report that two convex rainbows were visible.

At any rate the wind gradually got stronger and the temperature turned from a remarkably warm breeze to a chilly March blow. So last night was the first real March weather of the month. The wind was high and slight damage was done in various places. The sky had a greenish look around the moon particularly, and altogether it was an uncanny day and night.

### Special to The Democrat-Forum.

San Antonio, March 22.—A brief message from General Pershing through the wireless station at Columbus indicates that an encounter between the United States troops and Villa is near. The message was in code.

Communication which was broken late yesterday was re-established between the expedition and the border today. It was said that the import of the telegram was satisfactory. The cutting of all wires to the border aroused the fear that Villistas might have worked in behind Pershing. If there has been any large number, they may be a source of trouble.

Do not let it wear you out and encourage sickness. Take Dr. King's New Discovery. You will get instant relief.

Most of us neglect coughs and colds. We brush suggestions aside with the remark "I'll be better soon," and oftentimes we do get better. Isn't it better immediately to check that cold and ease the cough? Dr. King's New Discovery does it! Search as you will, you will not find a better remedy.

Dr. King's New Discovery is made of Pine Tar mixed with soothing balsams and laxatives. It's antiseptic and kills the germs, allays the cold-fever and soothes the irritated, inflamed throat. ## MAJOR INDORSED

(Continued from page 1.)

ted for the office—but they were all tied up politically so that they were unable to act according to their convictions."

**Mayer Up With Minority Report**  
Judge Mayer was introduced to present the minority report of the committee on resolutions. He started to explain his action, but the chair cut him short and ordered him to read the minority report.

The report reads: "We heartily endorse the conduct of our vice president, Thomas R. Marshall, and we instruct our delegates to work for his re-election." Judge Mayer moved the adoption of the minority report, and was permitted to speak, but disorder several times interrupted him.

Mayer said he was going to take five minutes to speak if it took all night to get it. He began by lauding past and present Democratic leaders who have brought honor to the party. "When did it become necessary for the party in this state to sacrifice principle for expediency?" queried the judge. He referred to statements Senator Stone had made asking the indorsement of Major, and said he doubted it, and that Stone had no right to make the state ridiculous by trying to batter down the rocks of Gibraltar with a goober pea. He characterized the indorsement of Major as a moral wrong and a political blunder.

## Untrue to Party Principles

"If we declare Major is fitted to stand alongside Wilson when 99 per cent of the people are opposed to it, we would be untrue to our party principles."

Judge Mayer asserted reports that Reed had worked a trick on Major were ridiculous, as Major is no real opposition to Reed anyway.

Mayer said he didn't bring on this fight. "When a farmer finds a sheep killing dog in his field and allows him to go home without shooting him, the dog ought to be satisfied," he said.

"We are willing to condone Major's mistakes, but we are not willing to brag about them," said he. "To open the campaign in Missouri with Major for vice president would make every decent man turn against us in disgust. To suggest the name of Major is to suggest ignorance, oppression, and corruption. The object is not to satisfy public opinion, but to beat it into insensibility with a policeman's club. Missourians have followed mistaken leaders, but they will never follow a leader who is a coward. I hope the Democracy of Missouri will refuse as it always has done to recognize incompetency and inefficiency."

## Cook Replies to Mayer

Sam C. Cook of Jefferson City, was recognized and mounted the platform. He expressed regret that Mayer had come here to wash his dirty linen in a convention.

"I say to you," said he, "that your personal quarrels will not control the affairs of the state."

In reply to a query from the audience he said he thought Major ought to be nominated. He said Wilson will name the vice president, and appealed to the Democrats to stop making material for the Republicans of this state.

John H. Lucas then took the platform and said that no man who signed the majority report were any candidate's colors.

Lucas' praise of Gov. Major and criticism of Judge Mayer for his attack on the governor met with mingled hisses, jeers, and cheers, which the chairman had difficulty in suppressing. He said the administration of Gov. Major would go down in history as an honest and capable one. "We will challenge the Republican party to take the administration of Gov. Major as an issue," he said.

Twenty-six counties voted for the minority report. Nodaway, with her fourteen votes, was one of these counties.

Judge J. W. Sallinger of Gentry county, and L. V. Stephens were

## SAYS U. S. CAN HOLD NORWEGIAN TRADE

War's End Should Not Stop Dealings, Bryn Thinks.

## RELATIONSHIP IS GROWING.

Norwegian Minister to United States H. H. Bryn Declares Outcome of European Conflict Will Mean That America Will Be Depended Upon For Trade.

New York.—The United States should retain the greater part of the trade with Norway acquired since the war, according to H. H. Bryn, Norwegian minister to the United States. Addressing the new Norwegian American chamber of commerce at the Waldorf-Astoria recently, he intimated that the outcome will almost entirely depend upon this country.

"The commercial relations between the two countries have grown very rapidly," Mr. Bryn said, "and of course it is not to be expected that all of this trade will continue. It was created because Norway was shut off from

Photo by American Press Association.

H. H. BRYN.

trading with those countries which she had dealt with for years. But commerce, you know, is conservative and dislikes a change. The trade is established here now and is growing. It is difficult to break it off."

The new organization, which wants it understood that it is not a hyphenated one, drew about 200 to its first dinner. The name is explained by the fact that over in Christiania a similar organization has been formed under the name of the American Norwegian chamber of commerce, and both are working to increase the trade.

President Gustavus Purges, the toastmaster, had the minister at his right hand and at his left Assistant Secretary of Commerce E. F. Sweet. Others at the main table were Norwegian Consul General Christian Ravn and August Reymert. Mr. Sweet said that Norway in tonnage had 104 tons of ships for every hundred inhabitants. He asked what that would mean if the United States had a similar ratio. The country must have a great merchant marine, he said, and added that if there had been any struggle on the sea in this war this country would have been glutted with goods that could not be exported and would be helpless.

"Tell us the secret of your wonderful merchant marine," he suggested. One man replied that the navigation laws of Norway were not so expensive as those of this country.

Mr. Sweet praised the Norwegians for their enterprise and their patriotism.

Left a Large Farm and His Personal Property to Children.

Stockton, Kan.—The will of the late Sanford Johnson has been filed for probate. According to this document, he left 640 acres of Rooks county land, free from incumbrance, besides personal property to the sum of \$7,000.

Born in bondage, freed by the emancipation proclamation and with no educational opportunities, Johnson succeeded in accumulating property far in excess of that of many of his white neighbors and associates. He came to Rooks county in the early eighties and homesteaded the quarter section on which he died.

He reared six children, giving all a common school education. He has always been considered one of the substantial and up to date farmers in his community. His property was divided among his children.

Husband 6 Foot 8; Wife 6 Foot. Fort Dodge, Ia.—A giant has been discovered in the person of Clare Gerd Posendahl, a young farmer. He caused excitement here because of his six feet eight inches. He weighs more than 299 pounds. His wife is six feet tall.

### Missouri Day Program

Given by Shakespeare Department.

The Shakespeare department of the Twentieth Century club met yesterday afternoon at the home of Mrs. Berny Harris, when a most interesting "Missouri Day" program was given. Miss Orvil Helwig and Mrs. Lewis White were the leaders and Miss Helwig was assisted by Mrs. Gallatin Craig. Miss Helwig gave a general outline of the history of Missouri. The round table was opened by a talk on the "Physical and Natural Resources of Missouri." Mrs. C. B. Roberts read a paper on the "Influence of the Mexican and Civil Wars on the State." Miss Lucie Davis gave a short talk on the "Educational and Religious Institutions of Missouri." Mrs. Lewis White then took charge and gave many points on the "Legal Status of Women in Missouri," and it was brought out by statistics that while Missouri leads in many ways, with natural productions, educational systems, etc., the state is far behind in recognizing the rights of her women.

Miss Elizabeth Turner gave a review of famous men and women of the state. Out of 400 famous men from this state she gave a short sketch of twenty and a number of women who have become famous in various business and literary pursuits.

Among other interesting things that Missouri leads the world in, is in educational system. St. Louis leads any city in the world in its educational system, and the largest apple orchard in the world is in Missouri.

The roll call was answered by short talks on Nodaway county and the pioneers.

Do you read the label to know whether your baking powder is made from cream of tartar or, on the other hand, from alum or phosphate?

Royal Baking Powder is made from cream of tartar, derived from grapes, and adds to the food only wholesome qualities.

Other baking powders contain alum or phosphate, both of mineral origin, and used as substitutes for cream of tartar because of their cheapness.

### NO CLOCKS IN PRISON.

Oklahoma Convicts Go by the Sound of Electric Gongs.

McAlester, Okla.—After a trip through the state penitentiary here a visitor realizes that he has seen no clocks. Neither in the administration building, the rotunda nor cell houses is there a timepiece.

Recently a visitor without a watch was escorted back to the administration rooms after a tour of the prison. He glanced at the walls looking for a clock to see if he had time to catch a car into the city. There was none.

"Why, where are your clocks?" he asked a trusty.  
The man grinned.  
"We don't need any. We all have all the time we want here," he replied. Then he added, "Electric gongs announce divisions of time—work, eat and retire—according to the rings."

### Jail Inmates Go Hunting.

Petersburg, Ind.—Hunting has become a pleasant diversion for some of the inmates of the Pike county jail. Time hangs heavily on their hands, and twice during one week recently prisoners were permitted the freedom of the nearby fields, and the privilege was given to kill, maim or capture wild game. Thus far the boarders have returned and have not violated their parole.

## If Your Baby Has Croupy Cold Joplin Mothers Can Advise You

They Recommend the "Outside" Application of Vap-O-Rub Instead of Harmful Internal Dosing.

Intelligent mothers everywhere realize that little children should be dosed sparingly, and yet some treatment for cold troubles is necessary. Joplin, Mo., mothers have solved this problem by the use of Vap-O-Rub. This is the "external" Southern treatment introduced here last winter. Applied at night over the throat and chest, the heat of the body releases the ingredients in the form of vapors, and thus the medication is inhaled with each breath through the air passages to the lungs. Vap-O-Rub gives quicker relief than internal medicines, and can be used freely with perfect safety on the smallest child.

## An Everyday Cake

Here is a simple and inexpensive cake that can be varied in many ways with different frostings and icings. It looks a little nicer baked in a tube pan, but will be equally as good baked in a square loaf.

### K C Gold Cake

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

1 cup butter; 1 cup sugar; yolks of 4 eggs, beaten light; 1 cup flour, less 2 level tablespoonsful; 2 level teaspoonsful K C Baking Powder; 1 cup milk; grated rind of 1 orange.

Sift flour and baking powder together three times; cream butter and sugar, beat yolks of eggs, add these to creamed mixture, and lastly add the moisture and flour alternately, beating batter until smooth. Gold Cake can only be made successfully by beating yolks of eggs, very, very creamy and light lemon colored, using a rotary beater. The rotary beater is the only beater that will do justice to the yolks of eggs. The beating kills all egg taste and improves the texture of the cake.

### Cocoanut Frosting

Beat the whites of 2 eggs dry; gradually beat in half a cup of sifted confectioner's sugar and continue the beating until the frosting is smooth, thick and glossy; then beat in grated cocoanut, fresh or prepared, and spread upon the cake. This frosting is made thick by beating rather than by sugar.

Save this recipe. You will want to use it frequently. Or better, send us the colored certificate packed in each 25-cent can of K C Baking Powder and we will mail you "The Cook's Book" containing this and 89 other baking recipes equally good—all by Mrs. Hill. Jacques Mig. Co., Chicago.

### WILLIAM D. ALKIRE HONORED

School Children Give 5 Cents Each for Wreath for Former Maryville Man Who Died.

The following account of how Pomona, Cal., honored W. D. Alkire, a former resident of Maryville, is from a recent issue of a Pomona paper:

Twenty-six hundred school children in Pomona today planned a giant floral tribute to William D. Alkire, pioneer merchant and member of the

board of education, who dropped dead in his store yesterday from heart failure.

All of the 2,600 school children today brought 5 cents each to school to pay for the mammoth floral wreath they will place on the coffin at the public funeral services to be held for the dead school trustee.

Following these services the school children will march before the hearse, carrying the wreath, which will be placed on the grave.

The board of education in a formal meeting today passed resolutions lamenting the death of Alkire. The vacant chair was draped in black.

The Pomona chamber of commerce and the merchants association passed resolutions requesting all stores to close tomorrow afternoon for an hour, starting at 2 o'clock, while the funeral of Alkire is being held.

The Pomona schools will close at

noon tomorrow and teachers and pupils will attend the funeral services.

### RETURNED BABY'S BANK.

Thief Robbed the House, but Brought That Back.

Sierra Vista, Cal.—A thief with a conscience recently entered the home of Clark Rubido here and after decamping with valuables amounting to \$100 returned to the burglarized house and deposited a child's bank containing \$2 in pennies, which had been part of the loot, on the front porch.

The Rubido family visited friends in Los Angeles that day, and about noon a neighbor, Mrs. Caroline Martin, saw a well dressed young man carrying a suit case walk up to the front door of the Rubido home, fumble with the lock a moment and walk in.

Mrs. Martin thought the stranger was probably a friend of the Rubidos, and when the young man reappeared some time after, still carrying the suit case, she told him that the Rubido family was passing the day in the city. The young man thanked her and hurried on.

Half an hour later Mrs. Martin saw the young man come back and deposit something on the front porch of the house.

When the Rubidos returned they found that the pleasant faced young man had carried away all their silver, several articles of jewelry and \$30. The baby's penny bank, which had been returned, was about the only movable valuable not taken.

### SOAP BRINGS REUNION.

Brothers Meet For First Time in Thirteen Years by Accident.

St. Paul.—Charles McKee of Ray, N. D., was sent to room 322 when he registered at the Hotel Sherman. Desiring to shave, he unpacked his grip. But his shaving stick was missing.

"Have you got any shaving soap?" he asked a man who was issuing from room 324.

"Sure," was the answer. They entered room 324 and turned on the light to look for the shaving soap. McKee looked at the other man critically.

"What's your name?" he asked.

"R. E. McKee of Shakopee, Minn." was the answer.

"I'm your brother Charley," the North Dakotan said.

The two had not seen each other for thirteen years. They were reared in St. Paul and separated after their parents died. Charles went to North Dakota, where he owns a half section of land. R. E. McKee went to Shakopee, where he owns a section.

In the last thirteen years they had not corresponded. Unknown to each other, each had amassed a fortune.

FOR SEWELL & CARTER

come to you as a cigarette creation worthy of comparison with any cigarette in the world, no matter what its price!

Blended choice Turkish and choice Domestic tobaccos in Camels provide a new flavor that is as delightful as it is refreshing. And besides, Camels are free from bite and parch, and leave no unpleasant cigarette after-taste, no matter how freely you smoke them!

Camel cigarettes are worthy of your confidence because they'll stand any test for satisfaction and for quality! Do not look for or expect coupons or premiums. The value is in the cigarettes!

And the more Camels you smoke the more you'll realize you prefer this blend to either kind of tobacco smoked straight!

R. J. REYNOLDS TOBACCO COMPANY  
Winston-Salem, N. C.

The stamp placed over and seals the package, which keeps out air, thereby preserving the quality of the blended tobacco. By inserting the fingers as illustrated, the stamp easily breaks without tearing the tin foil, which folds back into its place.

Camels are sold everywhere in scientifically sealed packages, 20 for 10c; or ten packages (200 cigarettes) in a glassine-paper-covered carton for \$1.00. We strongly recommend this carton for the home or office supply or when you travel.
